

Nursing Partnership Centers on Health Disparities

This initiative is called and results from a Request for Applications announced in December 2001. The purpose of the initiative is to foster the development of nursing partnerships between researchers, faculty, and students at Minority Serving Institutions (MSIs) and institutions with established health disparity research programs. This awards seeks to 1) expand the cadre of nurse researchers involved in minority health or health disparities research; 2) increase the number of research projects aimed at eliminating health disparities, and 3) enhance the career development of potential minority nurse investigators.

The eight Partnership Centers are listed below:

1. Center on Health Disparities Research, Johns Hopkins University, Baltimore, MD
Center on Health Disparities Research, North Carolina A&T State University, Greensboro
2. Nursing Research Center of HIV/AIDS Health Disparities University of California, San Francisco
Nursing Research Center of HIV/AIDS Health Disparities University of Puerto Rico Medical Sciences, San Juan
3. University of Michigan, Ann Arbor
University of Texas Health Science Center, San Antonio
4. Center for Innovation in Health Disparities Research, University of North Carolina, Chapel Hill
Center for Innovation in Health Disparities Research, North Carolina Central University, Durham
Center for Innovation in Health Disparities Research, Winston-Salem State University
